SITUATION SUMMARY

Boil Water Order , Escondido, San Diego County (Updated)

- The boil order was lifted for most of the affected customers last night, 08/17/14. The only customers still on the boil order are residential customers located on Caraway Street (south of Country Club Lane), Jana Place, Sonia Place, Via Alexandra, and Via Scott. This comprises approximately 60 residential connections. Rincon del Diablo Water District is still identifying the cause of the coliform bacterial but it has been isolated to a very specific area. [New samples were taken yesterday and the resulting lab reports are expected this afternoon.](#)

ACTIVE WEATHER WARNINGS, WATCHES and ADVISORIES: http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

An upper level trough will bring a chance of thunderstorms to portions of interior northwest California this afternoon and evening. Otherwise, seasonal temperatures will persist for the next several days with low clouds along the coast each night and morning.

San Francisco Weather:

Temperatures will be cooler than normal through midweek with night and morning low clouds as well as patchy drizzle near the coast. The forecast area will have a slight warming trend during the second half of the week.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

A low pressure system will move southward off the coast today reaching Southern California on Wednesday. Temperatures will cool to near or slightly below normal. There will be a slight chance of mountain thunderstorms today and Wednesday.

Hanford Weather:

An upper level trough of low pressure will move down the California coast and bring a slight chance of thunderstorms mainly over the mountains and a cooling trend through Wednesday. Then little change in temperatures will occur for the remainder of the week.

WEATHER

WEATHER SYNOPSIS BY REGION:

SOUTHERN CALIFORNIA:

Los Angeles Weather:

An upper level low pressure system will move south and strongly influence the weather through Thursday. Expect increased onshore flow, more clouds, and a deeper marine layer. The result is a cooling trend and possible drizzle with isolated mountain showers or thunderstorms. It is possible that subtropical moisture cloud move in later in the week bringing a slight chance of afternoon thunderstorms in the mountains.

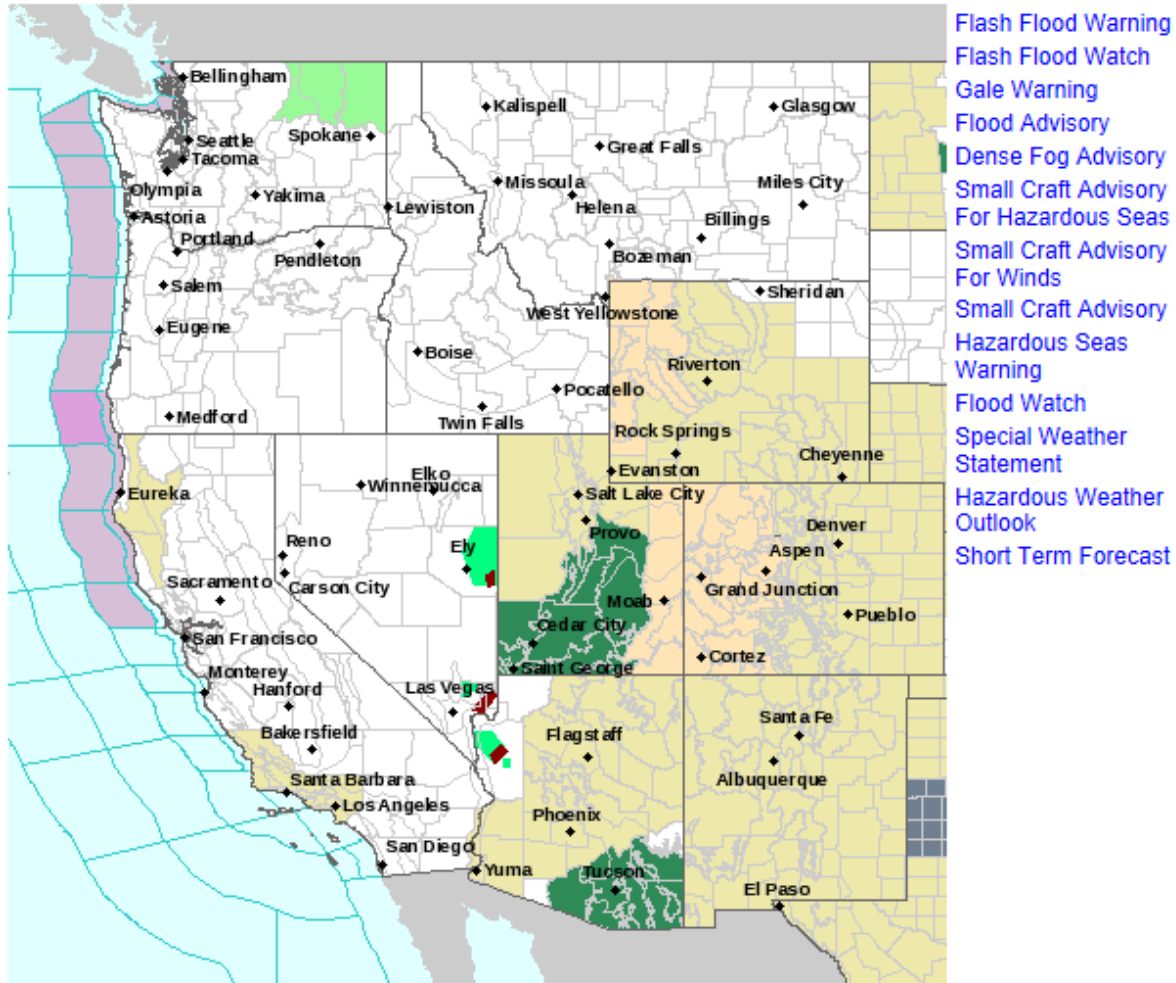

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Dry and mild conditions will continue through the day today. An area of low pressure dropping south along the California Coast tonight and lingering through Wednesday into Thursday will bring a deeper marine layer and a slight chance for showers and thunderstorms. Drier conditions and a shallower marine layer are forecast for Friday into the weekend.

Southeast California Weather:

An early season Pacific low pressure system approaching the area from the west is expected to produce widespread shower and thunderstorm activity through the day today with lesser chances for convective activity through Friday as the low center moves slowly eastward across the region. Drier air spreading in from the west will reduce thunderstorm activity from this weekend into early next week. Below normal temperatures are forecast from today through Friday, warming this weekend.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is Monday – Friday, 0800-1700 hours.

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- Current Reservoir Levels continue to decline. Levels as of August 18th : Don Pedro 42%; Exchequer 18%; Folsom Lake 40%; Lake Oroville 33%; Millerton Lake 47%; New Melones 24%; Pine Flat 12%; San Luis 20%; Lake Shasta 32%; Trinity Lake 31%; Pyramid Lake 94%; and Castaic Lake 44%.

- Emergency Drinking Water Procurement and Distribution Planning Guidance (rev. May 2014)
Significant changes have occurred to the structure of California's state government organization. Rapid advances in systems, science, and technology have helped emergency managers improve coordination, forecasting, and situational awareness. Because of these changes, the *Multi-Agency Emergency Response Procedures for Potable Water Procurement & Distribution* document has been replaced by the *Emergency Drinking Water Procurement and Distribution Planning Guidance*. The intent of this guidance document is to clarify the roles and responsibilities of the stakeholders involved in locating, procuring, and delivery of emergency drinking water¹ to populations in California. Consequently creating a framework for agencies and organizations to work together to enhance preparedness.

Situational Summary

- State Board Mandatory Conservation Regulations Now in Effect: The state's first-ever emergency regulations mandating urban water conservation became effective will be in effect until April 25, 2015.
http://www.waterboards.ca.gov/waterrights/water_issues/programs/drought/emergency_regulations_waterconservation.shtml
- The 2014 Governor Drought Task Force continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- Cal OES continues to gather drought-related costs from state agencies and local governments.
